The seal was that of the buttend of a knife and a current gold coin. It was then discovered that the arrangement of the drawing had been entrusted solely to persons from New York, and that all the ticket money except some \$6,000 or \$8,000 had been left in New York, and was not subject to a draft of the officers of the Association. A committee was appointed to proceed at once to New York to recover the money.

Of course it is of no use to preach a sermon to buyers of lottery tickets on the exposure of this swindle. The buying of lottery tickets is an infatuation in which those addicted to the practice will inside to text years of the exery hazard. Fall. River, October 1.—The manufacturers have won, and to-day every mill is running with one exception, the Monark, which is a bagging mill, and which has shut down on account of inability to sell its goods. At an early hour the operatives legan to assemble about the mills, and the superintendents were kept very busy in preparing the agreement for them to sign. Many workers were so anxions to go to work that they went to the mills on Saturday, and, after signing the agree-Caston to accompany him here, where he was announced to hold forth to the tax-ridden Democracy of this vicinity, who have their lands on the tax-duplicate at just one-half, and sometimes less, than what they ask for it. We left Steuben-ville about 4 o'clock in the afternoon, and were soon whirtling over the pike, which consists of the remnants of a defunct plank road with the ends of the planks sticking up and looking you in the face like the alligators on Red Biver. We arrived here at the house of our old friend Cole, who is a genind old soul, and who takes pride in catering to the wants of the traveling public.

After supper Mr. Gaston was called by a number of "setter-up" with the infant, and was also the recipient of a handsome serenade by the Richmond cornet band. At 7 o'clock, in company with the committee and the speaker, we wended our way to the school-room under the Old Fellows' hall, where the speaking was announced to come off, and where also the obsequies of what few Democrata there are in the township will take place on the 13th inst. On entering we found the room occupied by about 150 persons. An organization was effected by calling Captain Roberts to the chair, who thanked them for the very unexpected (?) honor conferred upon him—although, to our certain knowledge, he was at the house before dark. He took pleasure in introducing "Mr. Honorable Chating," who came forward and proceeded to arrange the clothes the inlant was too wear for the short hours of been most instrumental in continuing the strike, owing to the unity existing among

not hear Gen. Weir's speech, and but a part of Trainer's. What we did hear, however, was quite as much as we cared to hear. Oath followed oath, and vulgarity was interspersed all through the speech. A Democrat of acknowledged intelligence and judgment said to us yesterday that if there were any more such Democratic orators in the State the Republicans had better have them here to speak, as they did more good for the Republican cause than any Republican speaker could. It couldn't do much good though, when only a handful of boys and men heard it.

How different from this is the chaste, refined and impassioned style of ex-Gov. Noyes, who is to speak here Thursday evening. He is as noted for purity of diction as is Trainer for vulgarity and coarseness. Let the people hear him Thursday night on the public square and judge for themselves.

SUDDEN DEATH OF A PLANTER.

Mr. R. E. Hynson, said to be a wealthy cotton planter of Alexandria, was found near the Pacific Railroad depot last evening in a helpless condition and taken to the calaboose, under the supposition that he had become intoxicated, and placed in a cell. About midnight some gentlemen called at the police station and inquired for him, and upon going to the cell to bring him out he was found dead on the floor. Coroner Dudley examined the body to-day, and gave his opinion that death was caused by heart disease. It appears that Mr. Hynson came up from the South to visit his daughters, residing a few miles from this city, and when found was very ill, instead of intoxicated, and being unable to get on the train at the depot, had lain down near by, and was insensible when taken up by the police.
